

Zapotec Data Sorted by English Gloss

Mei Wan Rachel Liu¹, B. Paris Fleming¹, Yukki Baldoria^{1,2},
Julián Villegas³, Seunghun J. Lee^{1,4}

¹International Christian University, ²Yonsei University, ³The University of Aizu, ⁴University of Venda

This is a compilation of all the materials collected from eight previous works on Zapotec with English translation organised according to the alphabetical order of the English gloss. The ID column refers to the archive ID on the online archive. ZPT stands for Zapotec, and the following numbers correspond to their entry number in the archive. Source refers to one of the eight sources of literature from which the data was taken, and Page contains the page number in the corresponding source where it can be found. The Dialect column lists the Zapotec dialect that was analyzed in the literature. The following abbreviations correspond to the following Zapotec dialects:

1. SPGZ: San Pablo Güilá Zapotec
2. YalálagZ: Yalálag Zapotec
3. MacZ: San Pablo Macuiltianguis Zapotec
4. CLZap: Coatlán Loxicha Zapotec
5. IsthmusZap: Isthmus Zapotec
6. SADVZ: Santa Ana del Valle Zapotec
7. SBZoogochoZap: San Bartolomé Zoogocho Zapotec
8. SierraJuárez: Sierra Juárez-San Juan Atepec Zapotec

The Zapotec column lists items in orthography found in the original sources, and English lists the corresponding gloss to the entry in English. Tone lists the tone of the final vowel of the word, and the Phonation column illustrates the phonation type. Other general information can be found in Chapter 1: Brief Descriptions of Previous Research in Zapotec.
