

Style Sheet for *Educational Studies* (English Manuscript)

1. Manuscripts can be submitted either in Japanese or English. The following principles apply in the case of **English manuscripts**.
2. Manuscripts should be of the following length: (a) **Research Paper** not exceeding 4,000 words; (b) **Book Review** not exceeding 1,000 words; (c) **Doctoral Dissertation Abstract** not exceeding 1,000 words in English and 4,000 letters in Japanese. In the case of a research paper, an English and Japanese abstract (approximately 250 words in English and 400 letters in Japanese), and three to five keywords should be included with **Japanese translations**.
3. For each manuscript, the author should specify clearly: (a) the type of manuscript (Research Paper, Book Review or Doctoral Dissertation Abstract); (b) English and Japanese titles; (c) the author's name, affiliation, postal address for correspondence, fax and telephone numbers, and E-mail address; (d) the main text, references, accompanying tables, figures, abstract, and keywords. For Book Review and Doctoral Dissertation Abstract, references, accompanying tables, figures, abstract, and keywords are not needed.
4. We are trying to encourage a common citation and referencing style for articles published in *Educational Studies*. Accordingly, we ask all authors to adhere to the citation and referencing format described below.
5. Where chapter sub-divisions are necessary, sections should be indicated by numbers '1.', '2.', etc. The sub-section number should follow the section number and should be followed with a dot. Thus, sub-section 1 of section 1 is '1.1'. The same rule applies to the addition of further sub-sections.
6. References quoted in the text should be indicated as follows: e.g., Hayashi (1978), Suzuki & Tanaka (1978), Smith, Jones, & Ikeda (1998), and so on. The full reference appears in the Reference section at the end of the paper or report.
7. All Japanese references should be followed by the English translation as shown in the examples below. Romanization throughout the References section should follow the Hepburn system except that long vowels are not indicated. Entries should be in alphabetical order without distinction between Japanese and European language entries.
