

## バイリンガル児童教育プロジェクト (BCEP)

---

### Bilingual Children's Education Project (BCEP)

The continuing bilingual children's English club was founded by ICU Faculty and Teaching Staff in 1998 to provide language support for children of ICU from bilingual (Other Language-English) households. Formal, weekly classes rotated among ICU campus Faculty residences. The club received official ICU recognition as a 'research project' of the Institute for Educational Research and Service. The Bilingual Children's Education Project (BCEP) of the IERS is currently in transition. Children from the current participant families, as part of the normal life-cycle, have moved on to further education.
