2. Description

The database ICULD-0007 contains recordings of Drenjongke intonation produced by 10 speakers in July 2019. All recordings were made on a TASCAM DR-100 MK-III recorder and a Shure WH-30 Headworn microphone in Gangtok, Sikkim. Drenjongke language is a Trans-Himalayan language of the Bodish subgroup spoken in Sikkim. The language is also called Lhoke, Bhutia or Sikkimese. There are an estimated 80,000 speakers of Sikkimese Bhutia, Lhoke or Drenjongke. Based on negligible phonetic differences, real differences in the form of several morphological desinences and some lexical differences, Drenjongke can be divided into eastern, southern, northern and western dialects.

3. DB Information

DB number: ICULD-0007

DB Title: Drenjongke (Bhutia): Intonation

DB Type: PDF and Searchable Database

DB Year: 2020

Media Type: Text, Audio

DB Duration: 22.3 minutes

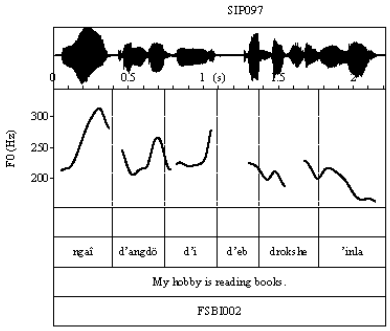
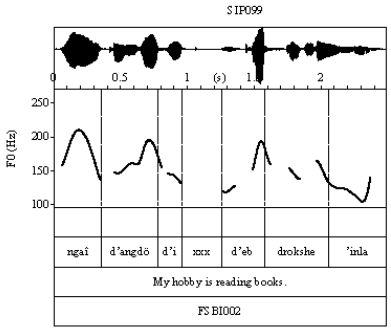
5. Notes

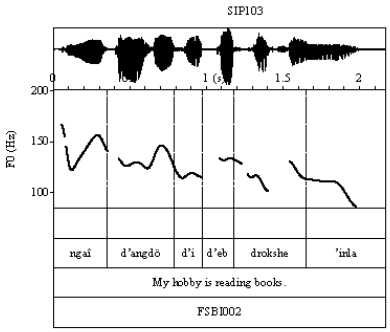
- The ID column has four different categories.
    - FBI represents question and answer pairs in a formal register;
    - IBI represents question and answer pairs in an informal register;
    - FSBI represents statements in a formal register; and
    - ISBI represents statements in an informal register
    - BI in the file names refers to Bhutia intonation (Bhutia is a term used by Drenjongke people referring to themselves).

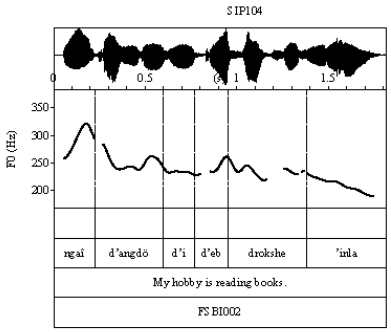
6. Sample plots

- These are four sample plots of statements in the formal register.

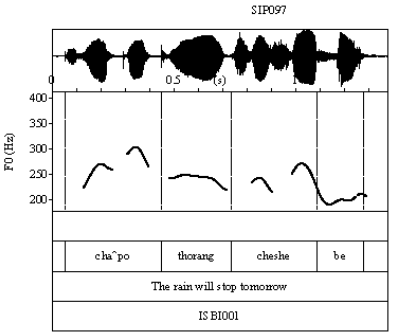


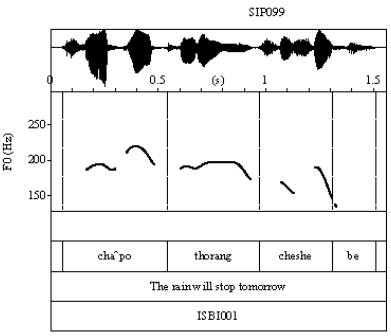


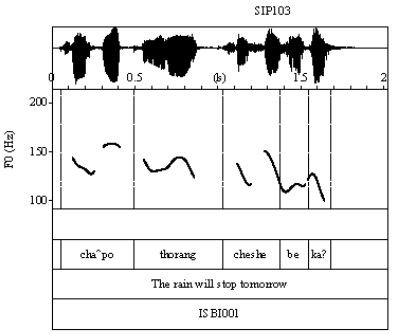


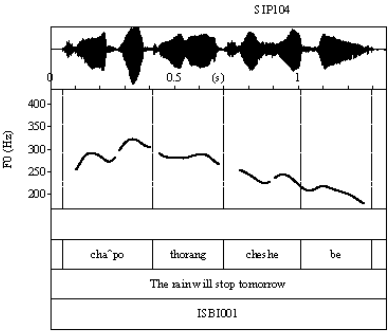


- These are four sample plots of statements in the informal register.

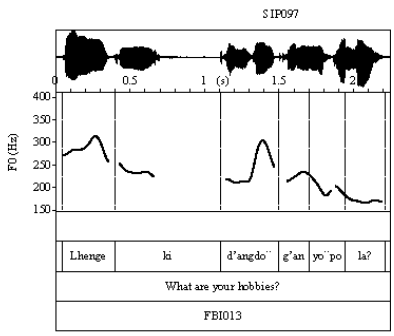


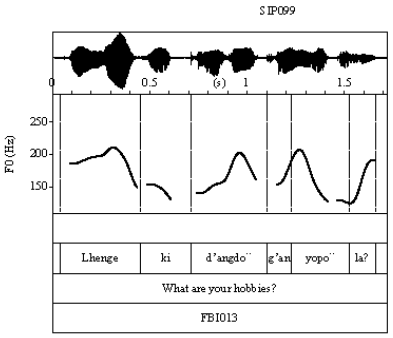


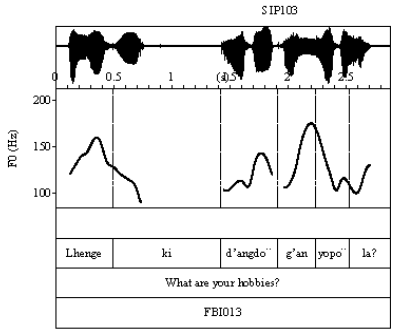


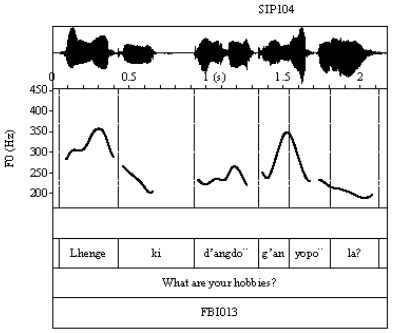


- These four sample plots of wh-questions.

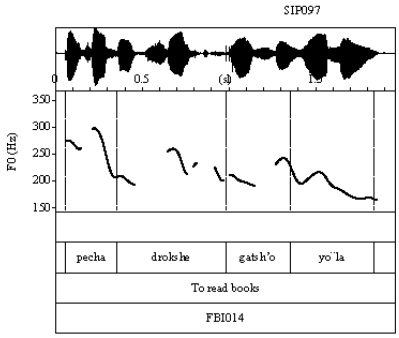


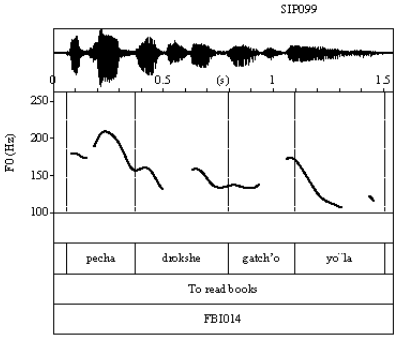


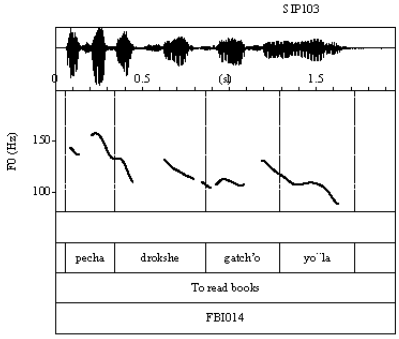


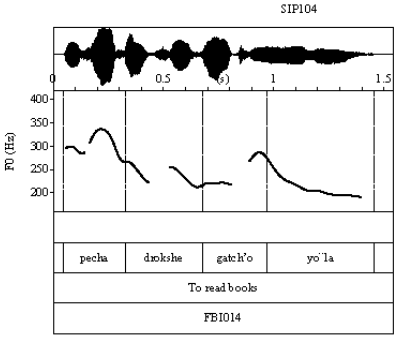


- These four sample plots of answers to the wh-questions.

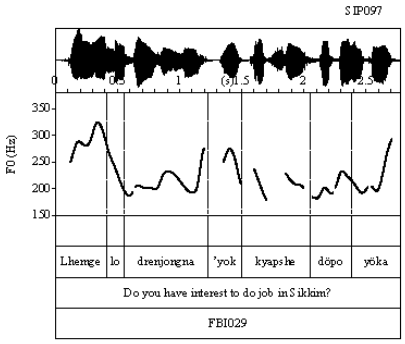


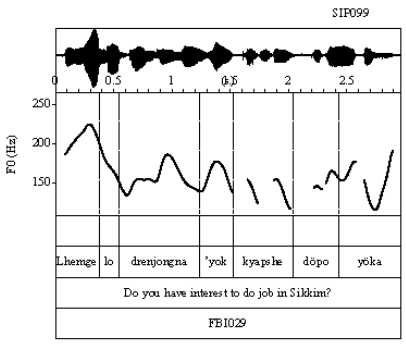


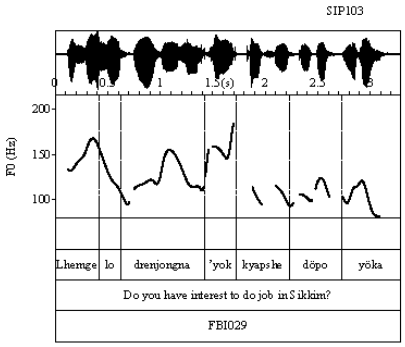


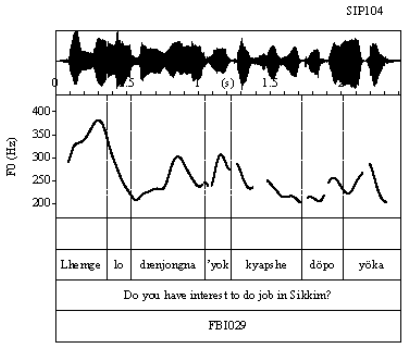


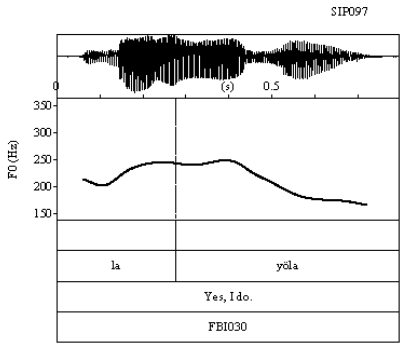
- These are four sample plots of yes-no questions.

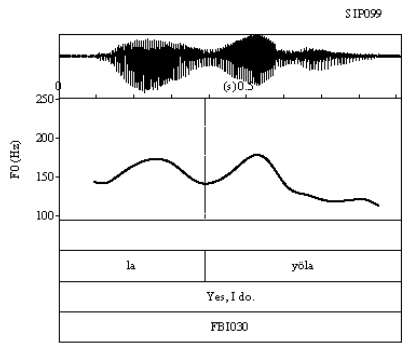


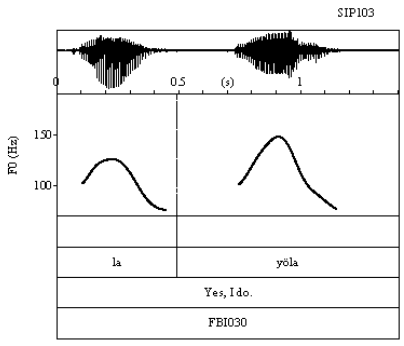


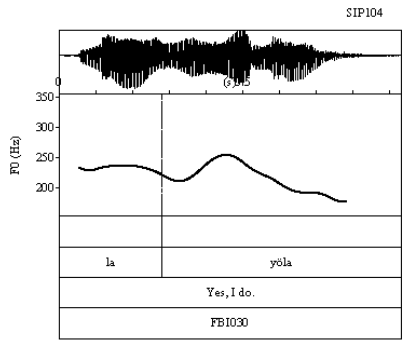












- These are four sample plots of the answers to the yes-no questions.
