

# ICU WPL

## Selected Topics in Pashto Linguistics

17

## Foreword

This volume of the International Christian University Working Papers in Linguistics (ICUWPL) contains four selected peer-reviewed papers, where the topics of the manuscripts were chosen by the authors themselves based on the findings from elicitation sessions conducted in the field methods course offered at International Christian University for 2021 Spring Term. It also includes a total of six squibs, two of which are on the sound system (consonants and vowels), one on the nominals, another on the verbs systems in Pashto, one on sentence prosody, and the final one on the word order. There is also a section with the Swadesh list for Pashto, conversational Pashto, as well as the materials used during class.

We would like to thank the reviewers for their time and endless patience during the editing process of their papers. We are also extremely grateful to our consultant for always answering our questions as well as for taking the time to meet with us multiple times a week. Additionally, would also like to thank Dr. Seunghun J. Lee and Dr. Tomoyuki Yoshida for their continuous support during the process of publishing this volume.

ICUWPL is sponsored by ICU Linguistics.

ICUWPL17 Editorial Team  
Yukki Baldoria (21')  
Le Xuan Chan (22')
